

INTERIOR DESIGNER I

Job Description: The Interior Designer I is an essential member of the design team, contributing fresh ideas, design skills, and assisting in various project tasks. This role is suitable for individuals with foundational experience in interior design and a passion for creative problem-solving.

Requirements:

- A professional degree in interior design from an accredited program is required.
- Licensure is not required but preferred.
- At least 3 years of relevant experience.

Job Responsibilities:

- Design Support: Assist in the development of interior design concepts, space planning, and material selections under the guidance of senior designers.
- Project Tasks: Support project managers in tasks related to project execution, including drafting, documentation, and coordination with suppliers.
- Client Interaction: Engage with clients to understand their preferences, contribute to design discussions, and support in maintaining positive client relationships.
- Design Development: Contribute ideas to design details, mood boards, furniture selections, and assist in preparing design presentations. Will assist in supporting project development activities through creation of visual aids, finish boards, and PowerPoint presentations.
- Collaboration: Work closely with design teams, architects, and other stakeholders, contributing to a collaborative work environment.
